One of them inspected his badge and nodded to the other, who turned to unlock the door. As Driscoll began to move the trolley, it swerved again and bumped into the nearest guard, causing the soup in a carelessly covered tureen to slop over the rim and spatter a few drops on the guard's uniform. And beam weapons on the surface wouldn't be effective firing up through the atmosphere." He spread his hands imploringly. "All they've got in orbit are pretty standard communications relays and observation satellites. The moons are both out of range of beam projectors. So what else is there?" "What are you suggesting?" Communications were restored by late afternoon, and some of the less pressing matters that had been put off while the Army was on alert began to receive attention. Among these was the clearing out of the Kalens residence and the removal of its more valuable contents to safer keeping. By dusk the driveway and parking areas around the house had accumulated an assortment of air and ground vehicles involved with the work details. What a bandit would hope to achieve on a world like Chiron was hard to see, but revenge against Chironians seemed to have a lot to do with it; two isolated homes had been invaded, ransacked, and looted, in the course of which five Chironians and one soldier had been killed, Three Chironians, including a fifteen-year-old girl, had been raped. The Army was scouring the area from the air and with search parties on foot, but so far without success --the renegades were well trained in the arts of concealment. Satellites were of limited use if they didn't know exactly where to look, especially where rough terrain was involved..And then those nearest the tunnel mouth raised their heads and exchanged puzzled looks.
