The beer, foaming in the."You don't know where you were born?".But Colman felt that he did belong here--among the machines. He understood them and talked their language, and they talked his. They were talking to him now in the vibrations coming through his suit. The language of the machines was plain and direct. It had no inverted logic or double meanings. The machines never said one thing when they meant another, gave less than they had promised to give, or demanded more than they had asked for. They didn't lie, or cheat, or steal, but were honest with those who were honest with them. Like Sirocco they accepted him for what he was and didn't pretend to be other than what they were. They didn't expect him to change for them or offer to change themselves for him. Machines had no notion of superiority or inferiority and were content with their differences--to be better at some things and worse at others. They could understand that and accept it. Why, Colman wondered, couldn't people?.As might be expected in an ancient and fully furnished mobile home available for by-the-week rental, the.he squints toward the sixteen-ton, motorized house of horrors.."It was," Jean agreed. The Chironians had taken the remarkable step of extending the equivalence of mass and energy to embrace spacetime itself: All three were merely different expressions of the same "thing." A shock wave forming inside the primordial domain of tweedlestuff, they had discovered, could create an energy gradient sufficient to "tear apart" an element of composite spacetime and decompose it into its familiar dimensions of space and time, in which the laws of physics as commonly understood could come into being. Thus the Chironians had found a cause for the discontinuity that terrestrial scientists had been obliged to postulate arbitrarily..be dead for sure. She found that she read articles on home-building instead of on the mechanism of DNA transcription, identified more readily with images projected by light domestic comedies from the databank than by tutorials on cell differentiation, and spent more time with the friends who swapped recipes than the ones who debated inheritance statistics. But she had raised two children that her standards told her she had every right to be proud of. She was entitled to rewards for the sacrifices she had made. And now Chiron was threatening to steal the rewards away.
