"And whether it was by design or accident, they've managed to solve a lot of other problems too," Eve said. "Take crime for instance. Theft and greed are impossible, because how can you steal another man's competence? Oh, you could try and fake it, I suppose, but you wouldn't last long with people as discerning as Chironians. They can see through a charlatan as quickly as we can spot ourselves being shortchanged. In fact to 'them that's just what it is. They have their violent moments, sure, but nothing as bad as what's coming in from Africa on the beam right now, or what happened in 2021. But it never turns into a really big problem. There's no motivation for anyone to rally round a would-be Napoleon. He wouldn't have anything to offer that anybody needs.". Aunt Gen didn't drink beer. Vernon had been dead for eighteen years. Still, Geneva kept his favorite. "I never said anything of the kind. The whole point is that they are no- indiscriminate. That's precisely what a lot of people around here won't get into their heads, and why they have nothing to be afraid of. The Chironians don't draw a line around a whole group of people and think

everyone inside it is the same. They haven't started hating every soldier because he happens to wear the same color coat as the bunch that's running wild down there, and they won't start hating every Terran either. They don't think that way." Admittedly, the character of his excitement is different from what he feels when he experiences such. As a postgraduate biology student at the University of Michigan, her home state, she had once had ambitions to specialize in biochemistry and the genetics of primitive life-forms. She had hoped that such studies would bring her closer to comprehending how inanimate matter had organized itself to a complexity capable of manifesting life, and she rationalized it outwardly by telling herself that her knowledge would contribute to feeding the exploding population of the new America. And then she had met Bernard, whose youthful zeal and visions of the "How do you mean, Jerry?" Lechat asked across the table. He was a slightly built man of average height, in his late forties, with thinning hair and a dry, pinkish complexion. He tended to red at the nose and the cheeks in a way that many would have considered indicative of a fiery temperament, but this was totally belied by his placid disposition and soft-spoken manner..enough to drink ought to be ashamed..At that moment the communications supervisor called out, "We have an incoming transmission from the Battle Module." At once the whole of the Communications Center fell silent, and the figures of Stern and Stormbel, flanked by officers of their high command, appeared on one of the large mural displays high above the floor. Stern was looking cool and composed, but there was a mocking, triumphant gleam in his eyes; Stormbel was standing with his feet astride and his arms folded across his chest, his head upright, and his face devoid of expression, while the other officers stared ahead woodenly. After a few seconds, Wellesley, Lechat, and Borstein moved to the center of the floor and stood looking up at the screen..remarkable. The crudeness of what she heard lulled to fire a blush in her. If she harbored anger, she hid it."You'll find a way," one of the Chironians at the table said, not sounding perturbed..Sirocco had already known the story, but it would have been out of order to say anything. Stanislaw's transfer to D Company had followed an investigation of the mysterious disappearance from Brigade stores of tools and electrical spares that had subsequently appeared on sale in the Home Entertainment department of one of the shopping mart..Fine." Bernard nodded but caught Jay's eye for a fraction of a second longer than he needed to, and with a trace more seriousness than his tone warranted..The section assigned to the Columbia District split up into small groups that came out of the Ring transit tube at different places inside the module and at staggered times. Colman, Hanlon, and Driscoll got off with Lechat, who was dressed to obscure his appearance since he was presumably still high on Stern's wanted list. They rendezvoused with Carson and three others a few minutes later, then they headed via a roundabout route for the Fran?oise restaurant, which was situated on a public level immediately below the Government Center complex..Little snot, Jay thought to himself and turned the page. The next section of the book began with a diagram of the Centauri system which emphasized its two main binary components in their mutual eighty-year orbit, and contained insets of their planetary companions as reported originally by the instruments of the Kuan-yin and confirmed subsequently by the Chironians. Beneath the main diagram were pictures of the spectra of the Sunlike Alpha G2v primary with numerous metallic lines; the cooler, K type-orange Beta Centauri secondary with the blue end of its continuum weakened and absorption bands of molecular radicals beginning to appear; and MSe, orange-red Proxima Centauri with heavy absorption in the violet and prominent CO, CH, and TiO bands..How do you know he'll go along with it?" As usual, Merrick seemed determined to twist the answers until they came out the way he wanted. "Of course not," Bernard replied. "But I think people are exaggerating the situation. That incident was not representative of what we should expect. The Chironians act as they're treated. "What do you think you're trying to do?" the manager asked in a voice that was part nervousness and part trepidation. "We don't want to get mixed up in any of this..Your bones get soft..I better check those orders." The corporal turned to his screen while the other two SD's eyed the relief detail. After a few seconds the corporal raised his eyebrows. "You're right. Oh, well, I guess it's okay." The other two SD's relaxed a fraction. The corporal called up the duty l-g4nd signed his team off. "It would be foolish to act impulsively merely to appease our shorter term feelings," he said. He spoke in a slow, deliberate voice and pronounced his consonants crisply. "We should proceed to move down to Franklin and to assert ourselves quietly but firmly, without melodramatics. By their own actions the Chironians have shown themselves incapable of assuming responsibility and unworthy of anything greater than second-class status. Their leaders have abdicated any role they might have gained for themselves in the future administration, and they will be in no position to set terms or demand favors when they

reemerge." He paused, and then turned his eyes to Howard Kalens. "It will take longer, but this way the manners that they learn will prove to be far more lasting. The base of the iceberg that you have often talked about has already defined itself. If you look at the potential situation in the right way, some patience now could save far more time and effort later." "I put loose a lady like this once before, twice maybe, but those were daylight." Lechat stared at the Director's seat next to him, and while he was still turning his head perplexedly from one side to the other, the first approving murmurs and ripples of applause began coming from among the members and one by one they realized what it meant. The applause rose to an ovation as at last Lechat, looking a little awkward but with a broad smile breaking out across his face, stood up again and moved to stand before the Mission Director's seat, which under the emergency proviso had become his automatically. Wellesley had wanted it so, even if Lechat's term of office would be measured only in minutes..preferred when it wasn't easy.".The dog whines with hunger..
