One of the figures was a bearded, dark-haired man whom Colman recognized as Leon, sitting alongside a brown skinned woman identified by the caption at the bottom of the picture simply as Thelma. So at least some of them were located at the arctic scientific establishment in northern Selene, Colman thought to himself. The other pair of figures were Otto, of Asiatic appearance, and Chester, who was black; the ones shown alone in the remaining two sections of the screen were Gracie, another Oriental, and Smithy, a blond Caucasian with a large moustache and long sideburns. Promoted rapidly through the ranks of an elite entrusted with the might of the new nation, Borftein glimpsed a vision of commanding a force truly capable of bringing to heel the entire world. But the vision had been short-lived. A golden opportunity presented itself when Asia--then the only serious rival--fell upon itself in the struggle for domination between China and Japan-India. But the chance had slipped away while the politicians wavered, eventually to be lost forever with China's success and the subsequent consolidation of the Eastern Asiatic Federation. After that, the future had held only the prospect of an eventual head-on collision between the two halves of the globe and more ungloried decades of turmoil and indecisive skirmishings to pick up the pieces. Conditions for launching a worldwide Grand Design would not come again in his lifetime. And so he had left to seek a more rewarding destiny with the Mayflower II. "Yes, Matt?" The others looked toward Sterm curiously.. "Old Sinsemilla. Who else? She's psychotic. As they say when they commit people to the psychiatric.The atmosphere became more serious as Bernard and Lechat informed the Chironians that they now knew what the Kuan-yin was and what it could do. "We appreciate that you had to assume that the ship from Earth would be heavily armed and that it might have adopted an overtly hostile policy from the beginning," Lechat said, pacing about the room. "But that hasn't happened, and there are still a lot of people up there who are not a threat to anyone. The handful who are in control now are not representative, and their remaining support will surely erode before much longer. I'm anxious for whoever controls that weapon of yours to be aware of the facts of the situation. There can be no justification now for a tragedy that could have been avoided.".. "Mmm ..." Colman murmured. Botany wasn't his line. Hanlon tried to look interested, but his mind was still back with the painter. After a few seconds he looked at Colman. "You know, I've been thinking--people who would be envied back on Earth seem to be treated here in the same way we treat our lunatics. Do you think we're all crazy to the Chironians?". "The countdown can be halted at any time," Sterm informed them..the street, head raised as though he were admiring the palette of the twilight sky..The murmurs from across the street rose suddenly to catcalls and jeers, accompanied by waving fists and the brandishing of sticks

that appeared suddenly from somewhere. Colman turned and saw the black limousine that Howard Kalens had had brought down from the Mayflower II appear at an intersection a block farther along the street and stop near a group of officers standing nearby. Major Thorpe detached himself from the group and walked across. Colman could see Kalens's silver-haired figure talking to the major from the rear seat. "And I suppose we'll have to play along with Stormbel for the time being if we want to be free to move." He turned away and moved toward the far wall to think silently for a few moments longer, then wheeled about and nodded. "Okay. Bret, you have to leave for the base right away. Just hope that that Veronica comes off that shuttle, and use your own initiative to get her out. That's all you have to worry about so, on your way." Hanlon nodded and disappeared back through the Orderly Room. "Steve," Sirocco said. "Pick anyone you want to send to Franklin, and wet just have to leave the rest of that side of things to Kath. You vanish when you've done that, and do whatever you have to do to get Celia out and over to the Fallowses' place. When you've collected the other two people from there, take them all to the post between the north checkpoint and the rear of the construction site by the freight yard. Maddock's section will be manning that sector from midnight to 0400. They know how to distract the SDs, and I'll make sure they're expecting you." Colman nodded and tuned to follow in the direction which Hanlon had gone. "Oh, and Steve," Sirocco called as a new thought struck him. Colman stopped at the door and looked back. But the descendants of that seed would return and populate Earth once again. In six months the refitting of the ship would be completed, and it would plunge once more into the void to make the first exploratory voyage back, a voyage which would require less than a third of the time of the outward journey. Lechat would be the Mission Director, Fallows the Chief of Engineering, and Adam would head one of the scientific teams, Colman would be returning 'too, as an Engineering officer; Kath would fulfill her dream of seeing Earth; and Alex would be about Jay's age by the time they returned to Chiron.
