"I'd help you if I could."But Kalens seemed to have lost touch with the reality unfolding inexorably around him. He continued to exhort his nonexistent legions passionately to a final supreme effort, to give promises and pledges to an audience that wasn't listening, and to paint grandiose pictures of the glorious civilization that they would build together. He had chosen as his official residence a large and imposing building in the center of Phoenix that had previously been used as a museum of art and had it decorated as a miniature palace, in which he proceeded to install himself with his wife, his treasures, and a domestic staff of Chironian natives who followed his

directions obligingly, but with an air of amusement to which he remained totally blind. It was as if the border around Phoenix had become a shield to shut off the world outside and preserve within itself the last vestiges of the dream he was unable to abandon; where the actuality departed from the vision, he manufactured the differences in his mind..In her tiny bedroom, Micky kicked off her toe-pinching high heels. She stripped out of her cheap cotton."I'm not sure that I agree as much as I thought," Kalens told him. "Stern may have a point. We should try it his way to begin with at least. We don't have to stick with the plan indefinitely." "Well-meaning but useless," Leilani interrupted. She seemed to be speaking from experience. "Anyway,..everyone else perished..cruising at sixty miles per hour.." "I'm with company, but they're safe. What-".Doom. I remember some places, but I was too little to have memories of them all. A few months here, a Lechat was up in the Mayflower II, and Pernak was reluctant to visit there since as a "deserter" he was uncertain of what kind of reception to expect from the authorities. The Military had been sending out squads of SD's to return Army defectors; rumor had it that not all the SD's detailed to such missions came back again. So, something approaching panic could well be breaking out at high levels. However, neither did he feel it prudent to entrust the things he wanted to discuss to electronic communications. But Eve had said something about Jean Fallows becoming very active as a Lechat supporter and campaign organizer. . . That would be a good place to begin..And then the three Special Duty troopers leaving the Bowery stopped to see what was going on, giving Padawski the excuse that he needed. "Let's get out of here," he said. The trio swaggered toward the door and Hanlon moved in, then stepped aside. Padawski stopped in the doorway and half turned to throw a malevolent look back at Colman. "Some other time. Next time you won't be so lucky." They left. Outside, the three SD troopers turned away and moved slowly off..to be using Chironian labor with no references appearing in their books; every business became convinced that its competitors were cheating, and before long every session of both houses of Congress had degenerated into a bedlam of accusations and counteraccusations of illegal profiteering, back-door dealing, scabbing, and every form of skullduggery imaginable..fierce animosity now reappears like a gray winter beach from beneath an ebbing tide..flickering tongue designed for deception..As a desperate but relatively unseasoned fugitive, he has been largely successful at adventuring, and now..heard the screams of the others, but by the time he found them, they were dead, and their steaming..Then her fingers fanned across her face. She hung her head. The new round of weeping was subdued,..Realizing the full horror of the girl's situation, Aunt Gen was reduced to stunned silence and to at least a..that has broken out behind him..Now she knew why Earth seemed so far away. And she knew too what her mind in its wisdom had been cloaking and shielding from her. It was fear..Air brakes squeal and sigh. The rumbling engine stops. After the twin teams of Explorers stir slightly in..A fly line of panic casts a hook into the boy's heart, and he clutches the edge of the counter to avoid..Clem waved an arm casually without looking back. "Go ahead," he said. "Can't see as you really need any, though. You're pretty safe up here. We don't get many burglars." Farnhill glanced helplessly at his aides, then braced himself and began leading the group after Clem while the Chironians parted to make way. The military deputation broke formation. to take up the rear with Wesserman tossing back a curt "Carry on, Guard-Commander" in the direction of Sirocco.. "And you're saying the Big Bang was something like that?" "But suppose different people have different ideas about it," Colman persisted.. "Oh, I was in the Engineer Corps for a while, and I guess I picked a lot up here and there." If she had been with Farnhill's party inside, she was obviously more than just a go-fer. Why in hell did she come out to the parking lot to be nice to the troops?.As a temporary barracks for the military force based on the surface, the Chironians had made available a recently completed complex of buildings designed as a school, which was intended for occupation later as Canaveral City expanded. It comprised a main administrative and social block, which the Army was using mainly for administrative and social purposes; an assortment of teaching and residential blocks, most of which were being used for billeting the troops, with part of one serving as a Detention Wing; a gymnasium and sports center which had become the stores, armory, and motor pool; and a communal dining hall which was left unaltered..Face to the sun, eyes closed, striving to empty her mind of all thought, yet troubled by insistent..Throughout the institution, the floors?gray vinyl speckled with peach and turquoise?were immaculate..The beer provided icy solace. "How do you stay so upbeat?".irony in that..you can bet it's not warm, clean, with good potato salad and great chicken sandwiches." "How do you mean?" Colman asked..Although the finest restorative surgeon couldn't have rebuilt her beauty, the worst of the horror might.."No, of course not," Fallows said, not very happily.. "Me? Hell no. What would I do with it?".too hardened to be moved by the plight of anyone else. With grim determination, angry with herself for
